The Conference brought to the Boosters' Club a new member in the person of Rev. Caldwell. At a dinner given him by the Club at the Y. M. C. A. building October 8, after being taken into the Club as a member, he gave us a short talk in which he said, "Fellow Boosters, let not knockers discourage you in your good work." You cannot live unto yourself, as you are associated with each other here, so are you associated with this Negro Race. As you are in the daybreak of your manhood and the daybreak of the twentieth century, you can do much to help us. I thank you for courtesies shown me and bid you God speed in your undertakings. ## NEGRO GIRLS USHERS.

One of the most gracious and pleasing innovations that has been established in places of amusement in this city was the employment of neat, intelligent and courteous colored girls as ushers at Kansas City's leading theatre, the Shubert. The credit for this innovation belongs to Mrs. A. B. Price, forewoman and for many years a trusted and valued employee of this theatre. When Mr. Earl Stewart, one of the greatest theatrical managers in this country, decided to try this innovation which has passed the experimental stage in the East, he asked Mrs. Price if she thought she could secure him about twenty intelligent, respectable and active young colored girls, which Mrs. Price assured him she could do, and on last Saturday night after two weeks of careful coaching by Mrs. Price, the following young ladies were given positions, which they are filling to the satisfaction of both manager and patrons: Ushers—Misses Erma Johnson, Melody Tomlin, Christina Redd, Emma Higgins, Louise Martin, Emma Brown, Helen Wright, Ethel Clark, Hattie Wright, Lula Brown, Marie Symms, Eula Chinn, Sopronia Chinn. Maids—Mr. Johnson, Mrs. Williams, Mrs. Wright. Footman—Maryland Wise. Machine Man—James Walker.

## A DELIGHTFUL STAG.

A delightful reception was tendered Mr. Martin H. Young of 3412 East Twenty-first street on the occasion of his 44th birthday by his charming wife at their beautiful residence. The house was beautifully decorated and the dining room table was occupied by an immense cake in which was embedded 44 lighted vari-colored tapers. Col. George E. Thompson with Chesterfieldian dignity received the guests and escorted them upstairs, while Lewis DeClue attended to the introductions and had charge of the serving.

Most enjoyable music was rendered throughout the evening by Boswell's Glee club and orchestra, while the whole company joined in the choruses of some of the popular songs. Wm. Hueston and Arthur Harris led the "bear hug" contest. A delightful luncheon was served consisting of hot fried spring chicken, mashed potatoes, green peas in timbales, new radishes, bread and butter sandwiches, Budweiser, "Kid Martin punch" and champagne, and to say that the "gang" did justice to this magnificent spread is putting it mild. Harry Brown and W. M. Snell were declared the winners in the wheel tournament, although this decision is stoutly contested by E. D. Fletcher and N. C. Crews, who never lost a game during the evening, while Brown and Snell did lose one.

On behalf of Mrs. Young, Mr. N. C. Crews in fitting terms presented Mr. Young an elegant silver, gold lined, handsomely engraved loving cup, which took him so completely by surprise that he was unable to respond, but requested Attorney W. C. Hueston to respond for him, which the brilliant young attorney did in impressive style. After singing "Auld Lang Syne" the guests departed for their homes, unanimous in their praise of the splendid host and hostess.

Mrs. Young was assisted in serving by Mrs. D. C. Houston, Mrs. E. T. Williams, Mrs. Dora Thomas and Miss Waunabia Webb. While those present were Mr. A. W. Harris, N. C. Crews, Dr. E. C. Bunch, F. H. Payne, E. P. Fagan, Harry J. Brown, James C. Reeves, E. B. Fletcher, W. W. Porter, Charles W. Garrett, W. C. Hueston, E. T. Williams, W. A. Finley, Geo. E. ## TAILORING AND CLEANING

G. V. GOLDEN

1605 East 18th St., Kansas City, Mo., Bell, E. 539.

Improper cleaning and pressing ruins the construction and the shape of your clothes.

Garments of today are made by the most skilled designers of the 20th Century. The art of making a suit or a dress is done by experts; the iron being one of the Principal Factors in shaping a garment. The inner construction of your coat, is the foundation upon which it is built. Time and patience, the proper kind of canvas padding, hair cloth, wadding, etc., is carefully selected to get the desired results.

If such patience and skill are required to build your suit it is only reasonable that it requires the same to keep its shape; therefore, the inner construction and shape are at stake in the hands of the inexperienced.

It is very easy for your garment to lose its Gracefulness and Body Lines if not Properly Pressed.

We are showing and selling suits from \$18.00 and up. If you have a misfitting overcoat or suit that needs remodeling, send them to us. We specialize, for we look after the small things.

It requires a thorough knowledge of the business in taking a garment apart and altering it, giving the same article a fit to your figure and still retaining its life and satisfaction to the wearer. Ladies' suits, fur, winter coats refined, altered to the different styles, are successfully handled by us. A trial will convince.

THE OLD WAY OF PRESSING.

## OUR CLEANING DEPARTMENT.

Everyone knows there are only two kinds of successful cleaning—DRY and STEAM CLEANING. Steam Cleaning is the use of distilled water, neutralized soaps, borax, ammonia, the use of chemicals and a great deal of thought and reasoning on account of the great variety of materials and the condition of the same. Articles steam cleaned require patience and reshaping by the presser.

THE NEW WAY OF PRESSING.

OUR MACHINE IS A GERM EXTERMINATOR. THE HIGH STEAM PRESSURE KILLS THE EGG LIFE.

DRY or FRENCH CLEANING is the process of cleaning soiled garments or other textile fabrics by means of benzine, gasoline or similar volatile solvents, which extracts the greasy matter, thereby removing the dirt.

It is indicated for goods which would be spoiled by coming in contact with water, by losing the shape or original finish, or where the colors would not be sufficiently fast for steam cleaning. Dry cleaning does not clean every article perfectly, because benzine loosens the dirt held by greasy matter only, but has no influence on water, soluble matter like sugar and glue. For instance, if you get wine, ice cream, or water spots on a silk dress, benzine will not remove the spot. You cannot treat the spot the same as you would for wool or cotton goods—silks of today are mostly artificial, tin-weighted and finished with glucose and other sizing properties.

The colors in silk are not deep dyed. To prove the same, if you slightly rub a spot on silk, it removes the color.

Organized cleaners of today are fighting the artificial silk manufacturers as many of the best shops do not guarantee silks.

## PRESSING DEPARTMENT.

Our HOFFMAN STEAM PRESS is a germ exterminator, even killing the egg life. One cannot be too careful as clothes worn by people in every walk of life, reach some Tailor shop.

The GOLDEN TAILORING AND CLEANING SHOP is located at 1605 East Eighteenth Street near Eighteenth and Vine, and our Bell Phone is East 539.

A share of your business will be appreciated.
